

# RISK WATCH WEBINAR

# Is Your Credit Union Prepared for a DDoS Attack?

REGISTER

TUES., MAY 13, 2014 • 1:00-2:00 EDT

**AT RISK:** Big banks aren't the only financial organizations targeted by DDoS and now the FFIEC has issued guidance to ensure you're prepared. Learn about how DDoS attacks impact your credit union, hear stories of attacks and new research that supports DDoS as a smokescreen for breaches including financial and data theft.

**WHY ATTEND:** Credit union CEO, COOs, CIOs and CTOs will learn about:

- The latest compliance requirements and guidance
- IT operations challenges and best practices
- The latest industry research on DDoS attacks and impacts
- Best practices and solutions for protecting your members and your institution

Register and receive  
a free research report

**“This is an important opportunity to learn what you can do to protect your members and your institution from DDoS and target cyber security attacks.”**

– Dennis Dollar  
Former NCUA Chair
