Technology Compliance Services,
provided through the AffirmX Risk
Intel Center

Your Information Technology Compliance Made Simple.

IT Security is an important component of your annual
compliance audit. The AffirmX solution helps you remain
compliant throughout the year by leveraging the latest
in cloud-based technology along with industry-specific
IT experts. Together with your participating Credit Union
League, we can help you identify and prevent threats to
your environment before they cause service disruptions,
security breaches, greater regulatory oversight, or even
fines for non-compliance.

For more information, credit unions should contact their
league or AffirmX directly at 888.972.3624

AffirmX
RISK INTELLIGENCE

affirmx.com
